Precision pruner

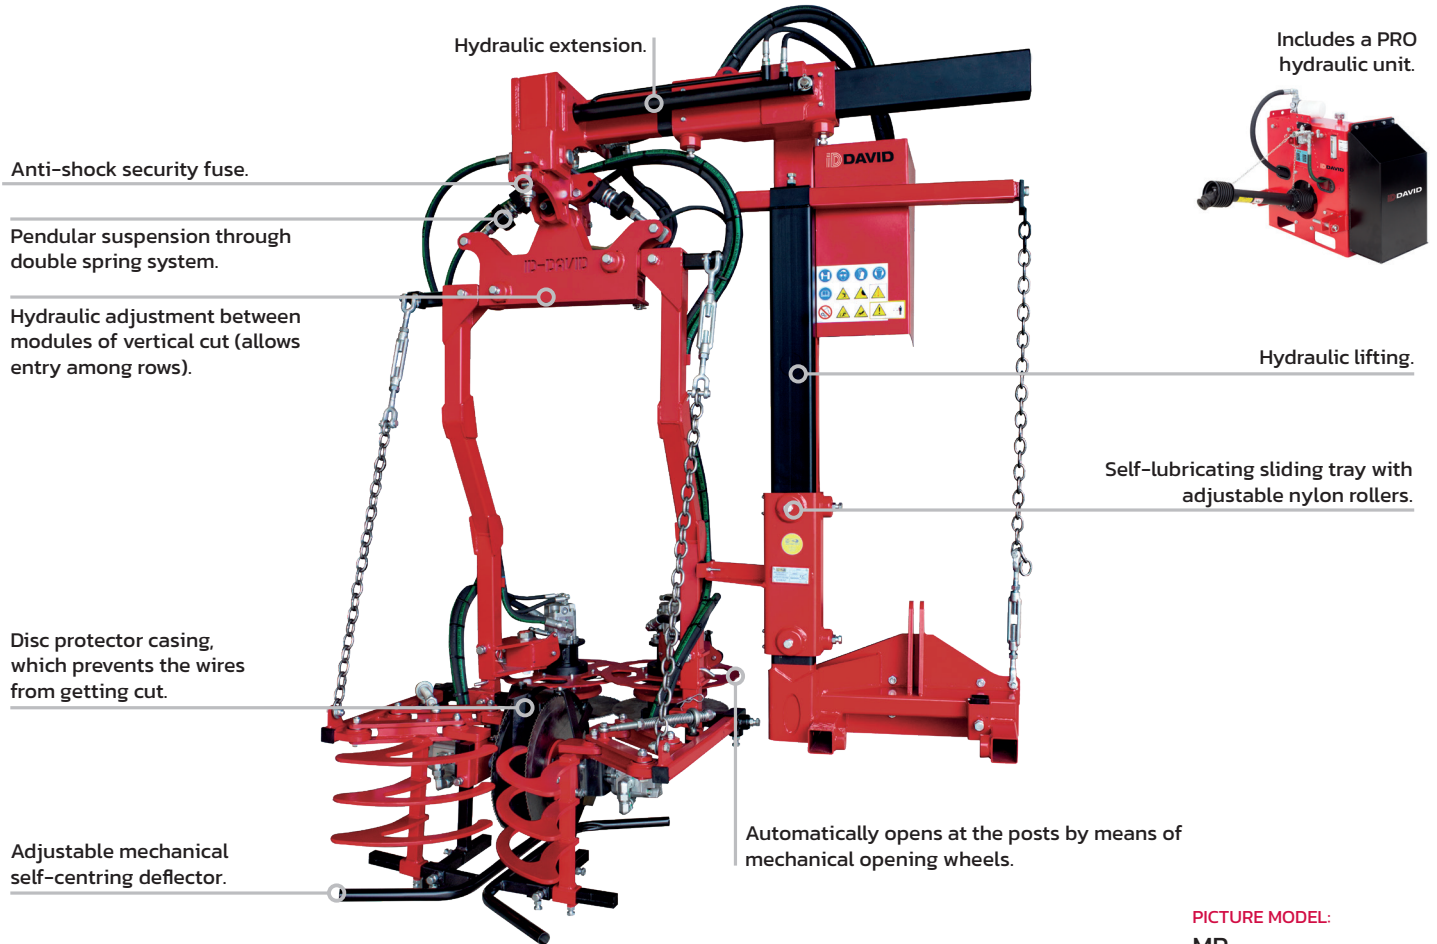

SERIE

CONDOR

Precision pruner. Pruner designed to make precision cuts in vineyards with posts that go beyond the cordon, drastically reducing the need for manual intervention, or even avoiding it entirely. Its side discs, which can be adjusted using mechanical dampers, emulate the plant by making high-quality cuts, while the horizontal discs avoid the posts thanks to their mechanical opening wheels.

PICTURE MODEL:
MP

Versatility

- The ID-CONTROL joystick allows to control all the machines manufactured by ID David and equipped with the ID-PLUS or ID-MICRO technology.
- Models adjustable to any kind of plantation system.

Exclusivity

- Maintains a constant verticality of the cutting head by the exclusive pendular suspension system that absorbing the ground irregularities.

Effectiveness

- Electrohydraulic system optimized for extremely low power consumption.
- Cutting elements supported by years of experience in the market.
- Correct evacuation of the remains of the pruning.

Reliability

- Components and materials of high quality.
- Low maintenance.
- Motors with safety valve and automatic reset in case of a shut down.

Safety

- Easy opening and closing adjustment of the discs to guarantee a good cut safeguarding the posts at the same time.

Sustainability

- Our painting is lead-free and without toxic pigments.
- The low power required allows the use of small tractors with a lower carbon footprint.
- Sustainable consumption: Equipment designed to be up-to-date and have a long service life.

Standard Equipment

- Anti-shock security fuse.
- Hydraulic lifting.
- Hydraulic width adjusting.
- Hydraulic adjustment between modules of vertical cut.
- Pendular suspension by means of a double spring.
- Storage foot.
- Includes a PRO hydraulic unit with cooler and quick couplings.
- Adaptable standard plate to tractor (frontal).
- Lateral support rods.
- Cutting discs Ø400 x 130 teeth.

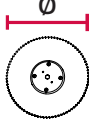

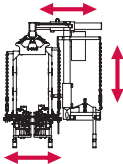

Remote control type

ID-PLUS

- Includes ID-CONTROL multifunction joystick.
- Includes an electronic microcontroller: allows software updates at any time.
- Up to 3 additional electro-hydraulic functions.

ID-MICRO

- ! NOT included the ID-CONTROL multifunction joystick.
- Only for customers who already have the ID-CONTROL multifunction joystick.
- Includes an electronic microcontroller: allows software updates at any time.
- Up to 3 additional electro-hydraulic functions.

Tractor mounting

Pruner Accessories and Options

	DESCRIPTION	OBSERVATIONS	REF.
	Counterweight box	Can be coupled to a hydraulic power plant of 80 or 150 lt	CPM-01
	3 Points linkage	Front 3P or reversible tractor	T3P-15
	Plate for front tractor coupling	It will be supplied only if the corresponding form has been correctly filled out	PA-F
	Cutting disc Ø400 130 teeth	Unit	D-A130
	Packaging	Basic	EMB-1
		Airfreight- oceanfreight	EMB-3

Our 3-keys Ideology

Organizational culture

We focused on Lean Manufacturing philosophy to improve operations management, products and workspaces

Mindset
ID

The Agile Methodology provides us a way to develop better projects in a faster manner, involving and organizing staff to operate as a whole

Design is our attitude and Design Thinking is the tool to face challenges and solve problems, designing products and services focused on users, involving them in the creative process
